

During this course you will learn how to use Animal Reiki; a simple, non-invasive alternative therapy to help animals balance on physical, mental/emotional, and energetic levels.

Our animal courses include hands on sessions with some of our furry friends.

Holistic thinking is focused on love, empathy, and respect. In treating an animal, a combination of both conventional and alternative or complementary therapies should be considered, and veterinary approval must always be sought. This mixture of healing arts and skills is as natural as life itself.

Links to the national occupational standards can be found on our website.

Independent Learning Hours: 104
Case Studies: 75

REIKI

Reiki offers simple techniques that anyone can do, that help us to open our hearts to the world around us, always from a grounded and centered place. When we live our life in this way animals, who are so pure and sensitive, feel it, are drawn to us and want to share with us and support us.

ANIMAL REIKI

Animal Reiki is a spiritual practice of compassion for all beings. The practices of Reiki help us navigate our life's challenges with grace while we learn to listen to and be present for others in a compassionate space.

Accredited by the Complementary Medicine Association, The International Practitioners of holistic medicine and the Alliance of Natural Health and Beauty

IS THIS COURSE FOR YOU?

Do you have a passion to help animals in need?
Do you want to explore energy healing with animals?
Are you ready to gain the experience and confidence you need to be able to share the gift of Reiki with animals and their people?
